

CS23E02 Artificial Intelligence-Mini Project
Assignment 2 Submission
7th Semester P & Q Batch
Due Date:29.09.26
Mini Project work-Phase2

1.PPT Presentation & 100%Implementation
Demo Dates: 21.09.2026 – 28.9.26

The PPT for Project Presentation should include 4 slides: Slide 1- Title, Slide 2 – Objective, Slide 3- Overall Architecture Diagram, Slide 4 – Module-wise Design Diagram with Snapshots/Results.

Come with soft copies of a couple of base papers and explain your contribution.

2. 100% Implementation and Full Paper Submission Deadline: 26.9.2026 (Through MS Teams)

Submit the full paper, updated document with overall architecture diagram, module-wise explanation with intermediate snapshots till final output (100%) and analysis of Results in tables or charts

3.Last date for Submission of Report and code: on or before 28.09.2026 (Through MS Teams)

Submit a **Report (Springer Format)** with

- Title, Abstract, Introduction -Problem Statement,
- Literature Survey with critical analysis and the gap detected,
- Methodology - Overall architecture diagram and detailed design diagram of the Modules.
- Proposed Result Analysis
 - Performance Metrics with Diagram
- Charts and Tables with Explanation and Observations about Results
- Conclusion
- References
 - Performance Metrics with Diagram

Paper -50

Implementation :50

Total :100

Course Instructor: Dr. P. Mohamed Fathimal

CS23E02 Artificial Intelligence-Mini Project
Assignment 1 Submission
7th Semester P & Q Batch
Due Date:29.09.26

Mini Project Work – Phase I: Project Ideation

Team Size: 2 (Fill team details in Google sheet - Registration Number, Team members' names, Project title. Base paper Title in IEEE Format)

This Project work **should not be replicated from Data Mining and Machine Learning project.**

(Fill team details in Google sheet - Registration Number, Team members' names, Project title. Base paper Title in IEEE Format)

1. Document Submission Date: 15.08.2026

Submission of Document:

- 2 Base Paper (Reputed Journal Paper)
- 3 Document
 - Abstract
 - Introduction
 - Literature Survey (refer to a minimum of 25 papers)
 - System Methodology
 - Architecture Diagram
 - Detailed Explanation with Design Diagram for Each Module
 - Proposed Result Analysis
 - Performance Metrics with Diagram
 - Charts and Tables with Explanation and Observations (Actual Results to be elaborated in Assignment 2)
 - Conclusion
 - References

Marks -Problem Statement 20
Literature Survey with References-40 ,
Modules Explanation -50
Performance Metrics-10
Total :100

Course Instructor: Dr.P.Mohamed Fathimal
